According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version	Revision Date:	SDS Number:	Date of last issue: 14.06.2023
4.10	14.06.2023	800001006645	Print Date 15.06.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: Shell Gadus S2 V100 2
Product code	: 001D8463

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	: Automotive and industrial grease.
Uses advised against	: This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the sup- plier.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier	: Shell UK Oil Products Limited Shell Centre London SE1 7NA United Kingdom	
Telephone	: (+44) 08007318888	
Telefax		
Contact for Safety Data Sheet	: If you have any enquiries about the content of this SDS please email lubricantSDS@shell.com	

1.4 Emergency telephone number

: +44 (0) 1235 239 670 (This telephone number is available 24 hours per day, 7 days per week)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Based on available data this substance / mixture does not meet the classification criteria.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms Signal word	:	No Hazard Symbol required No signal word
Hazard statements	:	PHYSICAL HAZARDS: Not classified as a physical hazard according to CLP

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version 4.10	Revision Date: 14.06.2023	SDS Number: 800001006645	Date of last issue: 14.06.2023 Print Date 15.06.2023
		Not class ENVIRO	I HAZARDS: sified as a health hazard under CLP criteria. NMENTAL HAZARDS: sified as environmental hazard according to
Precautionary statements :		: Prevention: No preca	autionary phrases.
		Response:	
		No preca	autionary phrases.
		Storage:	
		No preca	autionary phrases.
		Disposal:	
		No preca	autionary phrases.
Safe	y data sheet available o	on request.	
Sens	itising components	: Contains alkyl t Contains triazol Contains Zinc N	e derivatives.

2.3 Other hazards

This mixture does not contain any REACH registered substances that are assessed to be a PBT or a vPvB.

May produce an allergic reaction.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis.

Used grease may contain harmful impurities.

High-pressure injection under the skin may cause serious damage including local necrosis. Not classified as flammable but will burn.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature

: A lubricating grease containing highly-refined mineral oils and additives.

The highly refined mineral oil contains <3% (w/w) DMSOextract, according to IP346.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version	Revision Date:	SDS Number:	Date of last issue: 14.06.2023
4.10	14.06.2023	800001006645	Print Date 15.06.2023

Classification based on DMSO extract content < 3% (Regulation (EC) 1272/2008, Annex VI, Part 3, Note L).

Components

Chemical name	CAS-No.	Classification	Concentration
	EC-No.	Classification	(% w/w)

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

Protection of first-aiders	:	When administering first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.
If inhaled	:	No treatment necessary under normal conditions of use. If symptoms persist, obtain medical advice.
In case of skin contact	:	Remove contaminated clothing. Flush exposed area with wa- ter and follow by washing with soap if available. If persistent irritation occurs, obtain medical attention.
		When using high pressure equipment, injection of product under the skin can occur. If high pressure injuries occur, the casualty should be sent immediately to a hospital. Do not wait for symptoms to develop. Obtain medical attention even in the absence of apparent wounds.
In case of eye contact	:	Flush eye with copious quantities of water.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Vers 4.10		Revision Date: 14.06.2023		0S Number: 0001006645	Date of last issue: 14.06.2023 Print Date 15.06.2023
	If swalle	owed	:	rinsing. If persistent irritat In general no trea	enses, if present and easy to do. Continue ion occurs, obtain medical attention. atment is necessary unless large quantities owever, get medical advice.
4.2 Most important symptoms ar Symptoms		nd e :	Oil acne/folliculitis of black pustules Ingestion may res	s signs and symptoms may include formation and spots on the skin of exposed areas. sult in nausea, vomiting and/or diarrhoea.	
					evidenced by delayed onset of pain and few hours following injection.
4.3 lı	ndicatio	on of any immediate	meo	lical attention and	d special treatment needed
	Treatm	ent	:	vention and possi age and loss of fu Because entry we ousness of the un determine the ext anaesthetics or h can contribute to surgical decompr eign material sho	cally. ection injuries require prompt surgical inter- ibly steroid therapy, to minimise tissue dam-

5.3 Advice for firefighters

Special protective equipment : Proper protective equipment including chemical resistant

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version 4.10	Revision Date: 14.06.2023	•••	DS Number: 00001006645	Date of last issue: 14.06.2023 Print Date 15.06.2023
for fi	refighters		large contact wit Breathing Appar a confined space	worn; chemical resistant suit is indicated if h spilled product is expected. Self-Contained atus must be worn when approaching a fire in e. Select fire fighter's clothing approved to rds (e.g. Europe: EN469).
Spec ods	cific extinguishing meth-	:		g measures that are appropriate to local cir- the surrounding environment.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	6.1.1 For non emergency personnel:Avoid contact with skin and eyes.6.1.2 For emergency responders:Avoid contact with skin and eyes.		
6.2 Environmental precautions Environmental precautions	:	Use appropriate containment to avoid environmental contami- nation. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers.		
6.3 Methods and material for containment and cleaning up				

Methods for cleaning up : Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	:	Use local exhaust ventilation if there is risk of inhalation of vapours, mists or aerosols. Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this material.
Advice on safe handling	:	Avoid prolonged or repeated contact with skin. Avoid inhaling vapour and/or mists. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Properly dispose of any contaminated rags or cleaning mate- rials in order to prevent fires.
Hygiene measures	:	Exposure to this product should be reduced as low as reason-

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version 4.10	Revision Date: 14.06.2023	SDS Number: 800001006645	Date of last issue: 14.06.2023 Print Date 15.06.2023
			e. Reference should be made to the Health and ve's publication "COSHH Essentials".
7.2 Condit	ions for safe storage,	including any inco	ompatibilities
Furthe age sta	r information on stor- ability	place. Use properly l	er tightly closed and in a cool, well-ventilated abeled and closable containers.
Packa	ging material	ering the pack The storage of Pollution (Oil S ance may be of office. Suitable mater	on 15 for any additional specific legislation cov- aging and storage of this product. If this product may be subject to the Control of Storage) (England) Regulations. Further guid- obtained from the local environmental agency rial: For containers or container linings, use mild ensity polyethylene.
		Unsuitable ma	51 5 5
Contai	ner Advice		containers should not be exposed to high tem- ause of possible risk of distortion.
7.3 Specifi	c end use(s)		
Specif	ic use(s)	: Not applicable	

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Oil mist, mineral	Not As- signed	TWA (inhalable fraction)	5 mg/m3	US. ACGIH Threshold Limit Values
Oil mist, mineral		TWA (Inhalable particulate matter)	5 mg/m3	ACGIH

Biological occupational exposure limits

No biological limit allocated.

8.2 Exposure controls

Engineering measures

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

Adequate ventilation to control airborne concentrations.

According to EC No 1907/2006 as amended as at the date of this SDS

Shell Gadus S2 V100 2

Version	Revision Date:	SDS Number:	Date of last issue: 14.06.2023
4.10	14.06.2023	800001006645	Print Date 15.06.2023

Where material is heated, sprayed or mist formed, there is greater potential for airborne concentrations to be generated.

General Information:

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Drain down system prior to equipment break-in or maintenance.

Retain drain downs in sealed storage pending disposal or subsequent recycle.

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Due to the product's semi-solid consistency, generation of mists and dusts is unlikely to occur.

Personal protective equipment

The provided information is made in consideration of the PPE directive (Council Directive 89/686/EEC) and the CEN European Committee for Standardisation (CEN) standards.

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

Eye protection	:	If material is handled such that it could be splashed into eyes, protective eyewear is recommended. Approved to EU Standard EN166.
Hand protection		
Remarks	:	Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. PVC, neoprene or nitrile rubber gloves Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical re-

sistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material.

According to EC No 1907/2006 as amended as at the date of this SDS

SECTION	SECTION 10: Stability and reactivity				

10.1 Reactivity

The product does not pose any further reactivity hazards in addition to those listed in the following sub-paragraph.

10.2 Chemical stability

Stable. No hazardous reaction is expected when handled and stored according to provisions

10.3 Possibility of hazardous reactions

Hazardous reactions

: Reacts with strong oxidising agents.

10.4 Conditions to avoid

Conditions to avoid :		Extremes of temperature and direct sunlight.
-----------------------	--	--

10.5 Incompatible materials

Materials to avoid : Strong oxidising agents.

10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of :	:	Skin and eye contact are the primary routes of exposure alt-
exposure		hough exposure may occur following accidental ingestion.

(Annex XIV)

tion under REACH.

Volatile organic compounds : Volatile organic compounds (VOC) content: 0 %

Other regulations:

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

Environmental Protection Act 1990 (as amended). Health and Safety at Work etc. Act 1974. Consumers Protection Act 1987. Pollution Prevention and Control Act 1999. Environment Act 1995. Factories Act 1961. The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment (Amendment) Regulations 2011. Chemicals (Hazard Information and Packaging for Supply) Regulations 2009. Control of Substances Hazardous to Health Regulations 2002 (as amended). Merchant Shipping (Dangerous Goods and Marine Pollutants) Regulations 1997. Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (as amended). Personal Protective Equipment Regulations 2002. Personal Protective Equipment at Work Regulations 1992. Hazardous Waste (England and Wales) Regulations 2005(as amended). Control of Major Accident Hazards Regulations 1999 (as amended). Renewable Transport Fuel Obligations Order 2007 (as amended). Energy Act 2011. Environmental Permitting (England and Wales) Regulations 2010 (as amended). Waste (England and Wales) Regulations 2011 (as amended). Planning (Hazardous Substances) Act 1990 and associated regulations. The Environmental Protection (Controls on Ozone-Depleting Substances) Regulations 2011.

REACH	:	Not established.
TSCA	:	All components listed.

15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture by the supplier.

SECTION 16: Other information

Full text of H-Statements				
H314 :	Causes severe skin burns and eye damage.			
H315 :	Causes skin irritation.			
H317 :	May cause an allergic skin reaction.			
H319 :	Causes serious eye irritation.			
H332 :	Harmful if inhaled.			
H361 :	Suspected of damaging fertility or the unborn child.			
H410 :	Very toxic to aquatic life with long lasting effects.			
H411 :	Toxic to aquatic life with long lasting effects.			
H413 :	May cause long lasting harmful effects to aquatic life.			
Full text of other abbreviations				
Acute Tox. :	Acute toxicity			
Aquatic Chronic :	Long-term (chronic) aquatic hazard
